

**LEON COUNTY  
GROWTH AND ENVIRONMENTAL MANAGEMENT DEPARTMENT  
DEVELOPMENT REVIEW COMMITTEE STAFF REPORT**

STAFF RECOMMENDATION:      APPROVAL WITH CONDITIONS

PROJECT NAME:                      **Williams Sand Mine**

APPLICANT:                      Williams Capital Investments, Inc.  
Fred Williams  
7975 Sundown Creek Road SW  
Greenville, FL 32331  
850-224-0759

AGENT:                              JAKS Engineering  
Jacob R. Jaks  
1624-A Metropolitan Blvd.  
Tallahassee, FL 32308  
850-386-2058

**SUMMARY OF THE APPLICATION:**

The request is for a sand mining operation with a 672 square foot mobile office on site. The subject property is located in the Rhodes Subdivision, which is a recorded subdivision. It is located in the Rural (R) zoning district and is outside the Urban Service Area. The property is located at 6329 Woodville Highway, which is a principal arterial roadway. Sand Mining is an allowed use in the Rural zoning district pursuant to Section 10-1202 of the Leon County Land Development Regulations. In addition, pursuant to Section 10-1111 (a)(1)(a), mining activities in the Rural zoning district must be approved by the Board of County Commissioners. As a result, this development was required to follow the Type "C" Site and Development Review process. Electric service and water service will be provided by the City of Tallahassee. Sewage will be handled by septic systems as required by the Leon County Public Health Department.

PARCEL SIZE: 8.73 acres +/-

LOCATION: 6329 Woodville Highway  
ROADWAY ACCESS: Woodville Highway (Principal Arterial)

ZONING DISTRICT: Rural

FUTURE LAND USE: Rural

INSIDE/OUTSIDE  
URBAN SERVICES AREA: Outside

ZONING PATTERN: North: Rural  
South: Rural  
East: Rural  
West: Rural

ADJOINING EXISTING  
LAND USES: North: Allen's Excavation  
East: Vacant  
West: Apalachicola National Forest  
South: Single family residential

PERMITTED USE  
VERIFICATION: VC030031-R

**Site Plan and Subdivision Review Criteria:** In deciding whether to approve, approve with conditions, or deny a site plan, the Development Review Committee shall determine pursuant to Section 10-1482, Type C Review:

- (a) Whether the design standards and requirements set forth in the Subdivision regulations have been met;
- (b) Whether the applicable criteria of the Environmental Management Act have been met;
- (c) Whether the standards and requirements of the zoning code have been met; and
- (d) Whether the requirements of other applicable regulations or ordinances which impose specific requirements on the proposed development have been met.

**Growth and Environmental Management Department Staff Findings:** The staff is generally responsible for reviewing site plan application to ensure that the application meets the applicable requirements set forth in the Zoning, Site Plan, and Subdivision Regulations (Section 10 of the

Williams Sand Mine  
September 3, 2003  
Page 3

Leon County Code of Laws).

Pursuant to the review criteria identified in Section 10-1479.1, Type C Review, the Growth and Environmental Management Department findings are as follows:

Concurrency (Section 10-140):

An application for a preliminary certificate of concurrency has been submitted with the application for technical site plan review. On August 5, 2003, preliminary concurrency was approved. Final Certificate of Concurrency will be issued upon final site plan approval.

Zoning District Issues (Section 10-1202):

The subject parcel is located in the Rural zoning district. It is outside the Urban Service Area. Sand and gravel mining is an allowed use in this zoning district as a special use under Section 10-1111. This Section of the code requires the development to be approved by the Board of County Commissioners.

Commercial Site Location Standards (Section 10-922):

Not applicable

Buffer Zone Standards (Section 10-923):

A Type "D" buffer zone will be required along any property lines adjacent to single-family residentially zoned lots or land uses. This Type "D" buffer is required along the south and east portions of the property.

Please also refer to any comments from the Environmental Compliance Division

Conservation/Preservation Area (Section 10-953, 973, 974):

A Natural Features Inventory and an Environmental Impact Analysis for the project have been reviewed and approved by the Environmental Compliance Division.

Canopy Road Overlay District (Section 10-957):

Not applicable

Williams Sand Mine  
September 3, 2003  
Page 4

Parking and Loading Requirements (Division 7, Section 10-1028):

For offices, one regular space per 300 sq. ft. of gross floor area is required. Bicycle parking is also required at a ratio of 0.10 spaces per vehicle. For the proposed 672 square feet office, three parking spaces and one handicap parking space will be required. The handicap parking space shall be paved. One bicycle parking space will be required.

Finding: The proposed development meets these standards.

Accessory Structures (Section 10-1102):

Accessory structures must be located at least seven and one half feet from the property line, and a minimum of six feet from any other structure. They may not be located in a buffer or landscape area, nor in the front or side corner yard. Any proposed accessory structures must be shown in the concept development plan, and shall be included in all calculations of pervious and impervious areas.

Finding: No accessory structures are proposed for this site and development plan.

Specific Requirements for restricted uses and special exception uses (Section 10-1111)

- (a) *Rural district*
- (1) *Mining activities*

a. All mining activities as defined on the schedule of permitted uses must meet the specific development standards, as follows upon review and approval by the Board of County Commissioners following a duly noticed public hearing.

b. A plan must be submitted demonstrating protection of adjacent properties and public interest which shall include, but not be limited to the following:

1. The mining activity, all accessory uses and structures, internal roadways, and driveways on to the adjacent streets shall be set back a minimum of 100 feet from the perimeter boundaries or 200 feet from the nearest off-site residence, residential zoning district or subdivision intended primarily for residential land use, whichever distance is greater. This setback standard may be reduced if less of a setback is approved in writing by the adjacent property owner or owners prior to site plan approval or if the adjacent property is also used as a mining activity.

Williams Sand Mine  
September 3, 2003  
Page 5

2. A plan of vehicular access to and from the site demonstrating that heavy trucks and equipment will not travel on that portion of a local or minor collector street with frontage containing residential land use, zoned for residential land use, or containing subdivision lots intended primarily for residential land use.
3. A land reclamation plan shall be submitted demonstrating that upon termination of the activity the land shall be returned to a condition that will allow an effective reuse comparable to surrounding properties.

Finding: Letters from two adjacent property owners were submitted in which they agreed to a reduced setback for the mining activity. These property owners agreed to reducing the setback to 50 feet. This development has met the remaining requirements of this section of the code.

Development Standards (Sections 10-1209):

The following design criteria for the *Rural zoning* district are required by this section:

<u>Minimum Lot Area:</u>	10 acres
<u>Minimum Lot Width:</u>	Not Applicable
<u>Minimum Lot Depth:</u>	Not Applicable
<u>Minimum Lot Frontage:</u>	15 feet

Minimum Building Setbacks:

	<u>Building</u>	<u>Parking</u>
Front	30 feet	40 feet
Corner	30 feet	40 feet
Side	40 feet	40 feet
Rear	50 feet	50 feet

Maximum Impervious  
Surface Area: 30 %

Maximum Building Restrictions:

Not Applicable

Williams Sand Mine  
September 3, 2003  
Page 6

Maximum Height: 45 feet

The site and development plan meets these standards.

Special Roadway Setbacks (Section 10-1107):

Not applicable

Permitted Use Verification (Section 10-1477):

*(VC030031 Issued on March 24, 2003; revised March 31, 2003)*

The above referenced parcel is eligible for the proposed sand mine and the 672 square feet office. This parcel is located in the Rural (R) zoning district and is outside the Urban Service Area (USA). A portion of this property is also located within the FEMA 100 year floodplain. Sand and gravel mining is a permitted use within the Rural zoning district. As per Section 10-1111 (a)(1)(a), which states that all mining activities must be approved by the Board of County Commissioners, the development of this parcel will be required to follow the Type "C" site and development plan review process.

Comprehensive Plan Issues:

Sand mining at this location has been determined to be consistent with the Comprehensive Plan.

Deviation from Development Standards (Article XI, Division 9)

None requested.

**Leon County Growth and Environmental Management Department:**

The Department of Growth and Environmental Management recommends approval with conditions to the Board of County Commissioners (BCC). The recommendation is based on the above referenced findings and the incorporation of the following conditions into the site and development plan:

1. A graphic needs to be shown on the site plan indicating how the refuse area will be screened.
2. The vicinity map needs a north arrow.
3. All existing septic systems, including drainfields, shall be shown on the site plan as

Williams Sand Mine  
September 3, 2003  
Page 7

required by the Leon County Public Health Department.

4. All regulated substances and waste must be disposed of properly as necessary by the Aquifer Protection Section.

5. The unused well(s) must be properly abandoned by a licensed well contractor following NFWFMD guidelines. The NFWFMD inspection report will be required as proof of proper abandonment.

6. A water service plan must be approved by the City of Tallahassee.

**Responses to Notification:**

RE: Williams Sand Mine-Environmental Analysis Approval (EIA), Project Parcel  
# 31-32-51-018-001-0

Dear Mr. Jaks:

We have completed review of the Environmental Analysis (EIA) plans and stormwater information for the referenced project submitted on August, 19. We have determined that the project is consistent with the stormwater and landscape components of the Leon county land Development Code for Site and Development planning.

If you have questions regarding these comments, please contact me at (850)488-9300.

Sincerely,

Sandra Roper  
Environmental Review Specialist

<b>Project:</b>	Williams Sand Mine
<b>Parcel Number:</b>	31-32-51-018-001-0
<b>Future Land Use Designation:</b>	Rural
<b>Zoning District:</b>	Rural
<b>Applicant:</b>	Williams Capital Investments, Inc., Fred Williams
<b>Applicant's Agent:</b>	Jacob R. Jaks, JAKS Engineering

**Planning Department Findings:**

1. The pre-application is based upon PUV VC030031R, for sand mining operations and associated office, per Section 10-1111(a)(1)a., *Leon County Code* (pertaining to requirements for sand mines).
2. To ensure full compliance with Section 10-1111(a)(1)b.3., *Leon County Code* (reclamation requirements) the application shall include a binding commitment from the property owner to reclaim the site to pre-mining appearance, as otherwise provided by the proposed site and development plan. [Section 10-1111(a)(1)b.3 specifies: *A land reclamation plan shall be submitted demonstrating that upon termination of the activity the land shall be returned to a condition that will allow an effective reuse comparable to surrounding properties.* ]

**Planning Department Recommendation:**

The Planning Department recommends that this application be approved, subject to the following condition:

- The site and development plan application shall be revised to include the following annotation: "By no later than June 30, 2015, or 180 days subsequent to the cessation of mining operations on this property if these operation cease prior to December 31, 2014, the owner of this property, or their successors and assigns, shall have completed reclamation of this property as provided pursuant to this site and development plan. This commitment includes the obligation that this property owner, or their successors and assigns, bear the financial obligation for this reclamation."

# Aquifer Protection Site Review Clearance Form

City of Tallahassee  
Your Own Utilities™

Site Information Site Name: **Williams Sand Mine**

Team: **LO-RYAN CULPEPPER**

Location: **6329 Woodville Highway**

Tax ID: **31-32-51-018-0010**

Status: **TYPE C**

Agenda Date: **8/13/2003**

Date of Site Visit: **Monday, August 11, 2003**

Inspected by: **Walt Loomis**

**Important:** It is the permittee's responsibility to provide the documentation indicated in the checked sections below. Aquifer Protection Clearance will be issued only after the required documentation is provided to: Koren Taylor, P.G., Aquifer Protection Section, 3805 Springhill Road, Tallahassee, FL, 32305-6502; Phone (850)891-1200; Fax (850)891-1062. If additional wells, borings, or Regulated Substances not described below are discovered by the permittee during site clearing or other permitted activities, the permittee shall comply with the appropriate provisions in Leon County Land Development Code Article XIV and shall notify the Aquifer Protection Section of actions taken to comply with these provisions.

## Aquifer Protection Items Found on Site And Action Required:

☒ **Unused Well(s)** Number Of Wells: **1**

**4" metal casing on pad with 0.5' stickup and tank at N 30.35006 and W 084.25706.**

The unused well(s) must be properly abandoned by a licensed well contractor following Northwest Florida Water Management District guidelines ((850)539-5999). The NFWFMD inspection report will be required as proof of proper abandonment. [Authority – Leon County Code Section 10-1957(a)(1) and Chapter 40A-3.531(1), (2)(b), (4), and (5), Florida Administrative Code.]

☐ **Geotechnical Borings**

The geotechnical borings must be properly abandoned. Borings less than 25 feet deep may be back-filled with the original or other clean soil. Borings deeper than 25 feet shall be grouted with neat cement from bottom to top. A signed statement from the geotechnical consultant that the borings have been properly abandoned will be considered adequate proof of action completion. [Authority – Leon County Code Section 10-1957(b)]

☒ **Regulated Substances/Waste**

About a half dozen containers of used oil and other oil based products around property. Piles of roofing materials (shingles and asphalt with some appearing as potentially asbestos) on property back SE corner. Large fuel tank on property NE corner has a fuel smell around it. Trailer and small house currently on site.

The on-site waste described above must be disposed of properly. On-site waste which could present a hazard to water resources if improperly handled (including solvents, paints, pesticides, waste oil, batteries, fluorescent lights or other mercury containing devices, etc.) must be removed from the site by either a Department of Environmental Protection-approved hazardous waste transporter, recycler, or in many cases may be transported by the permittee to the Leon County Hazardous Waste Center, located at the Leon County Landfill. If the Hazardous Waste Center is used, they must be contacted for approval and delivery scheduling (922-0400) prior to the contractor removing the waste from the site. Regardless of the approved method of disposal chosen the permittee must obtain receipts documenting the proper disposal of the waste. Copies of waste receipts will be required as proof that action was properly completed. [Authority – Leon County Code Section 10-1959.]

☐ **Other:**

## Aquifer Protection Clearance

This Clearance form will be signed by a member of the Aquifer Protection Section when all actions identified above have been completed. The final environmental inspection will not be conducted and the permit will not be issued until the Aquifer Protection Clearance is completed.

Dear Committee Members:

Leon County Schools' Planning Department offers the following comments with regard to the items on the September 3 Development Review Committee Meeting agenda:

**Williams Sand Mine Type "C"** – No impact to LCS schools.

**Hampton Creek Type "C"** – Moderate impact on the Leon County Schools (225 units). The proposed residences would be zoned for Apalachee Elementary, Fairview Middle and Rickard High schools. Apalachee and Rickards have room to accommodate new students; however, Fairview is over 95% capacity.

Thank you for your consideration.

Sincerely,

Dawn Davis, Program Specialist  
Planning and Policy Development
